

NBER Behavioral Public Economics Boot Camp

Hunt Allcott, B. Douglas Bernheim, and Dmitry Taubinsky

July 14, 2025

Reminder: please always wear your masks!

Motivating questions

Should states run lotteries?

Should states run lotteries?

[A lottery] preys upon the hard earnings of the poor; it plunders the ignorant and simple.

–U.S. Supreme Court, in *Phalen v. Virginia* (1850)

Should states run lotteries?

[A lottery] preys upon the hard earnings of the poor; it plunders the ignorant and simple.

–U.S. Supreme Court, in *Phalen v. Virginia* (1850)

In our stressful world, the ability to dream is well worth the price of a lottery ticket ... The lottery is simply a form of entertainment that happens to benefit your state.

–National Association of State and Provincial Lotteries (2021)

Should we “nudge” people to change behavior?

**WARNING:
Cigarettes
cause
cancer.**

Should we “nudge” people to change behavior?

The changes in behavior produced by nudges tend be quite cost effective relative to those produced by traditional policy tools -- so there is a big opportunity to use nudging more widely in government in conjunction with traditional policy tools.

–Katy Milkman, Wharton professor

Should we “nudge” people to change behavior?

The changes in behavior produced by nudges tend be quite cost effective relative to those produced by traditional policy tools -- so there is a big opportunity to use nudging more widely in government in conjunction with traditional policy tools.

–Katy Milkman, Wharton professor

While sin taxes produce revenues for the government from those whose behavior is unchanged, soft paternalism creates pure utility losses with no offsetting transfer to the government.

–Ed Glaeser (2006)

How should we regulate addictive goods?

The New York Times

San Francisco Bans Sale of Juil and Other E-Cigarettes

How should we design health insurance when consumers are confused?

How do we design and evaluate policy when people might not act in their own best interest?

Behavioral + public

- **Public** economics: well-oiled machinery for welfare analysis when people optimize
- **Behavioral** economics: people might not always optimize
- **Behavioral public** economics: theory and empirical tools to design and evaluate policy with possible behavioral bias

Camp agenda

Day 1: foundations

9:00–9:30	Welcome and overview (Allcott, Bernheim, Taubinsky)
9:30–10:00	Speed meetings
10:00–11:00	Behavioral welfare analysis (Bernheim)
11:00–11:15	Break
11:15–12:15	Sin taxes and bans I (Allcott)
